PIVOT LINE ANALYTICS B2B PROPOSAL

Purpose

We believe in supporting the millions of Americans who rely on small businesses for their livelihood.

We make it easy for small businesses to turn their data into clear, actionable insights.

What drives us? The 30 million American families that are counting on a small business to succeed.

SUMMARY

Pivot Line Analytics turns your everyday data into clear, actionable insight. This proposal outlines three analytics partnership tiers designed to improve operational clarity, increase revenue, and support confident decision-making.

PROBLEM STATEMENT

Most businesses operate without a clear understanding of what drives profit or drains resources, resulting in decisions made without clear direction. This leads to inconsistent revenue, rising costs, and missed opportunities for growth..

SOLUTION

Pivot Line Analytics provides a tiered analytics partnership tailored to your business's current needs:

- **Consistent monthly performance reporting**
- **Actionable recommendations** based on your data
- **Cost effective support** without hiring a full-time analyst
- **Advanced analytics projects** (pricing, forecasting, customer insights, etc.)

You receive dedicated, ongoing analytical support that delivers reliable clarity allowing you to stay focused on running your business.

MARKET OPPORTUNITY

Companies who effectively use their data can grow up to **30% faster** than those that do not. Clear insights drive confident decisions, higher ROI, and more predictable financial performance. Pivot Line provides this competitive advantage at a fraction of the cost of hiring a full-time analyst.

ANALYTICS PARTNERSHIP TIERS:

<i>Corpus</i>	<i>Vector</i>	<i>Apex</i>
Understand your core data	Discover the direction	Gain strategic insight
Cost - \$400 / Month Deliverables: • Monthly Performance Report • Key trends presentation • Two quick action steps	Cost - \$800 /Month Deliverables: Corpus + • Simple, clean dashboard • In-depth recommendations • Basic profitability review	Cost - \$1500 /Month Deliverables: Vector + • Custom Dashboard • 1 advanced analytics project • Weekly strategy check-in
